User Manual for Installation of NxtCrypto Service Utility & testing of eToken

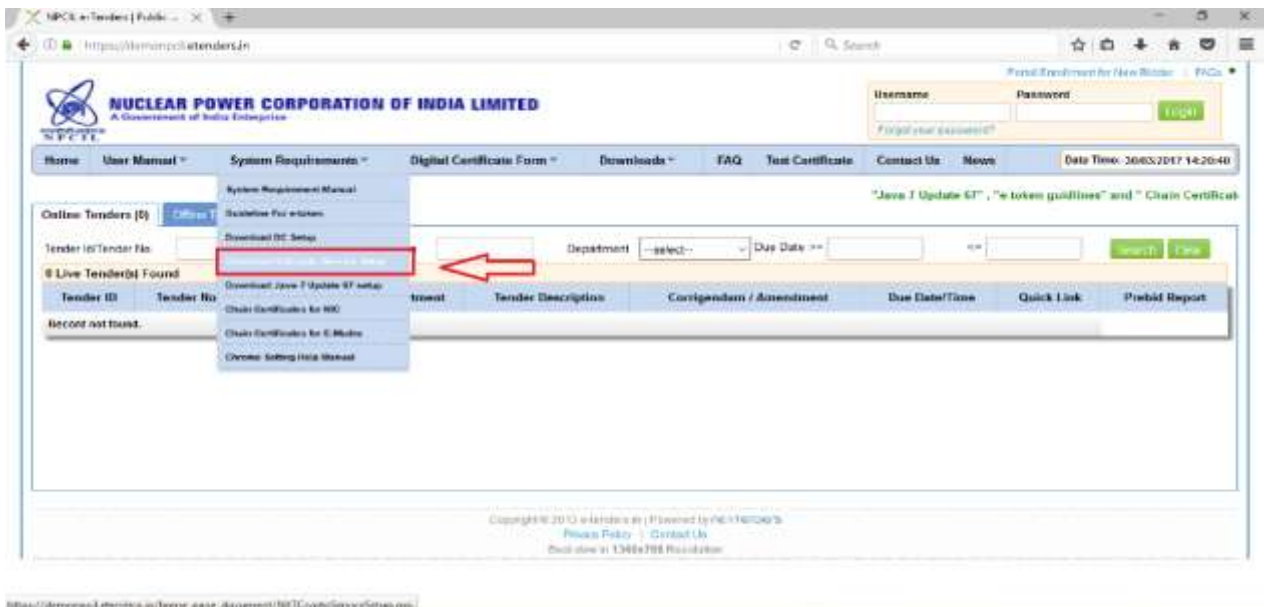

Prepared by:

Nextenders (India) Pvt. Ltd. Mumbai

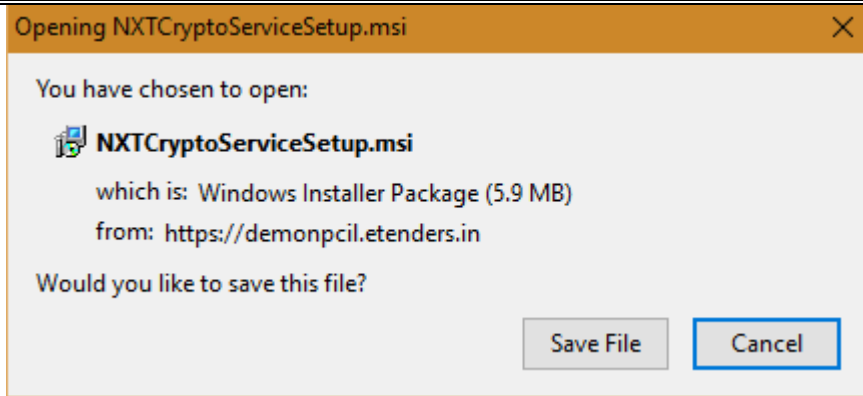

1. Open the URL <https://npcil.etenders.in>

2. Select “System Requirements” menu and Click on “Download Nxtcrypto Service Setup”.

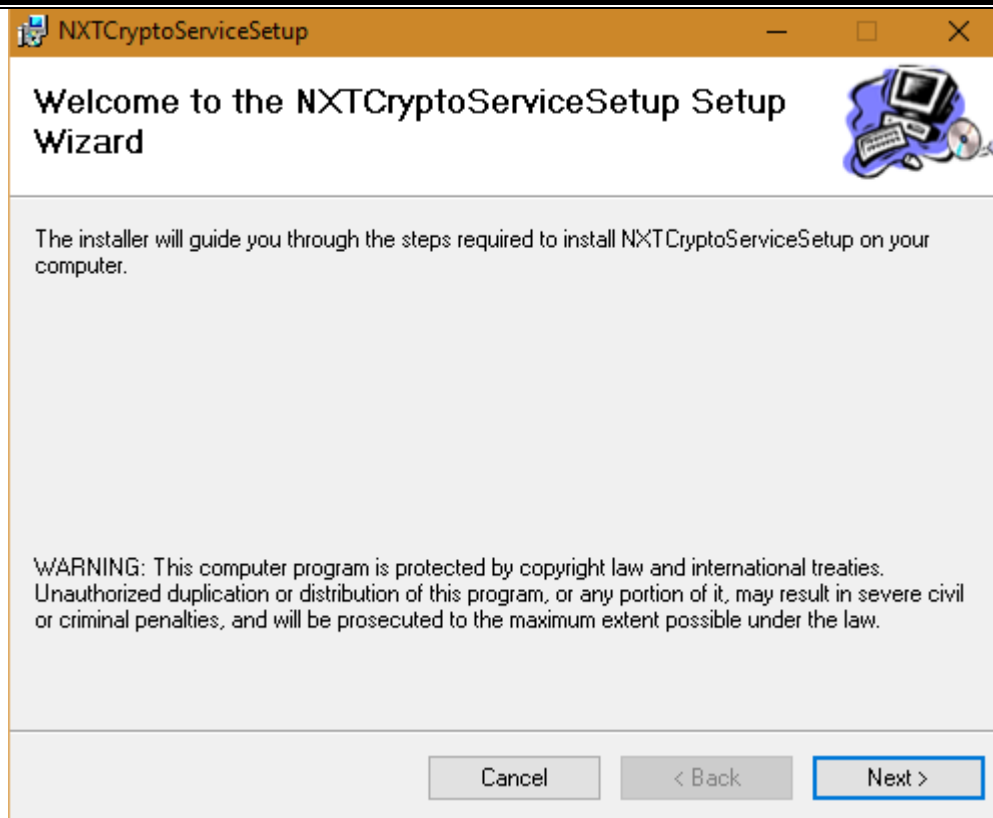

3. Following Window will appear, Click on “Save File” to save the .msi file to desktop.

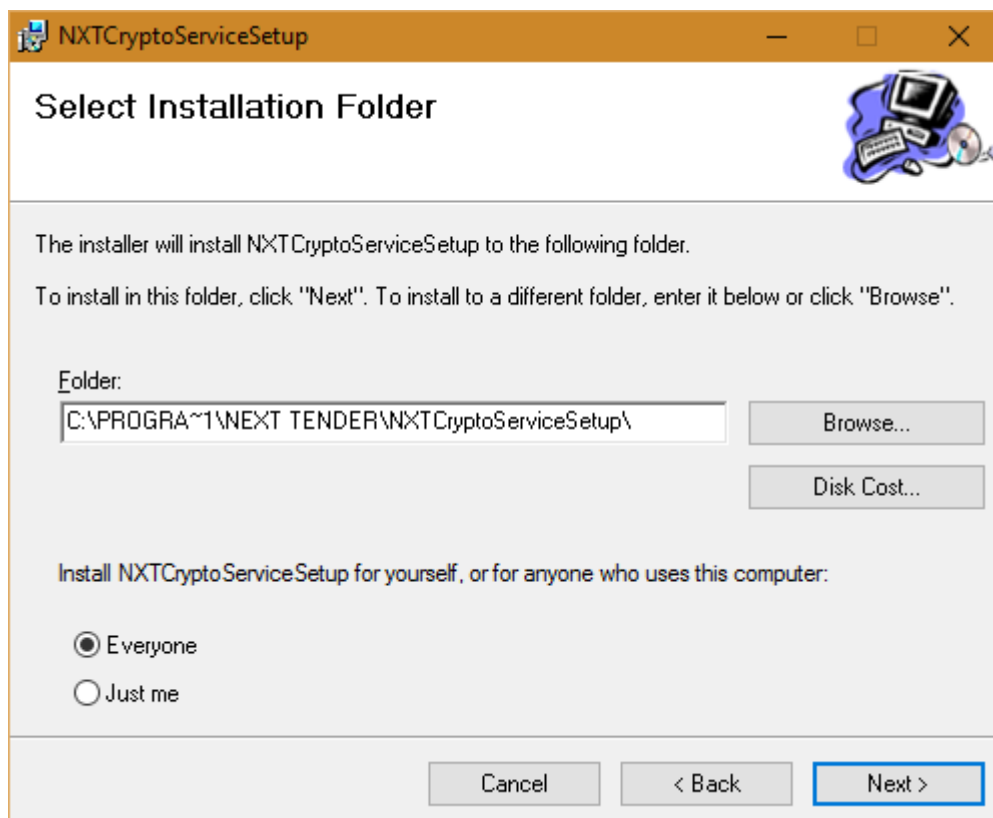

4. After saving the file, double click on saved file to install. Click on **“Run”** to install the setup.

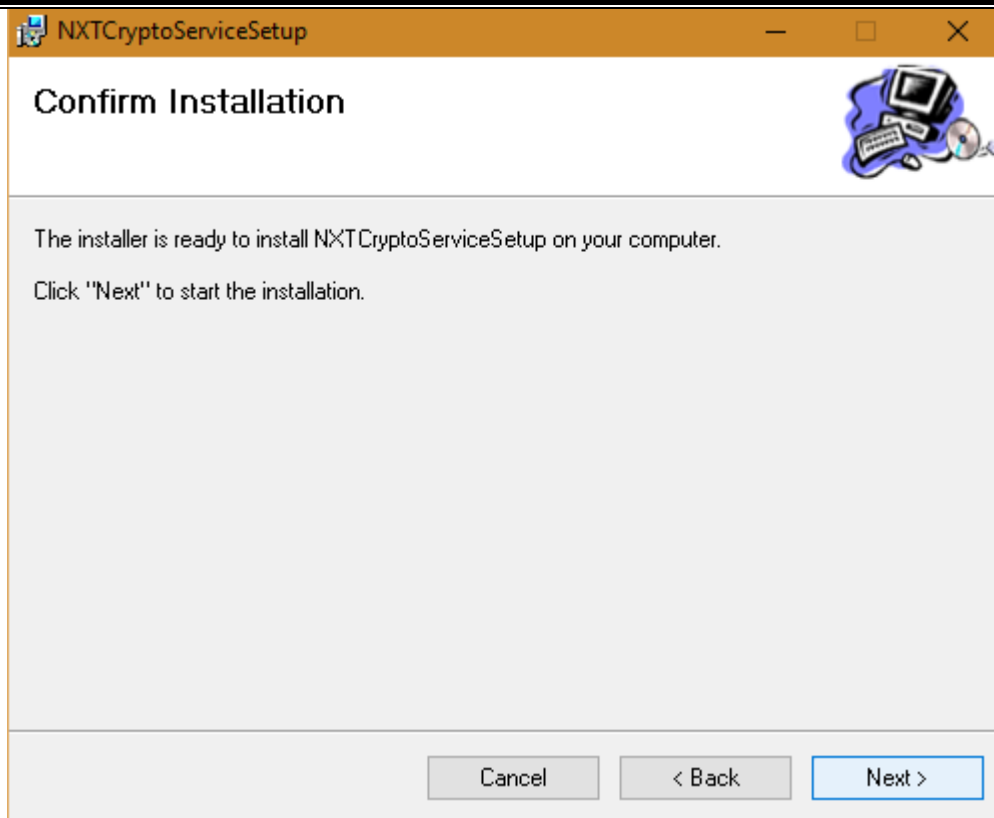

5. Click on **“Next”** to proceed further.

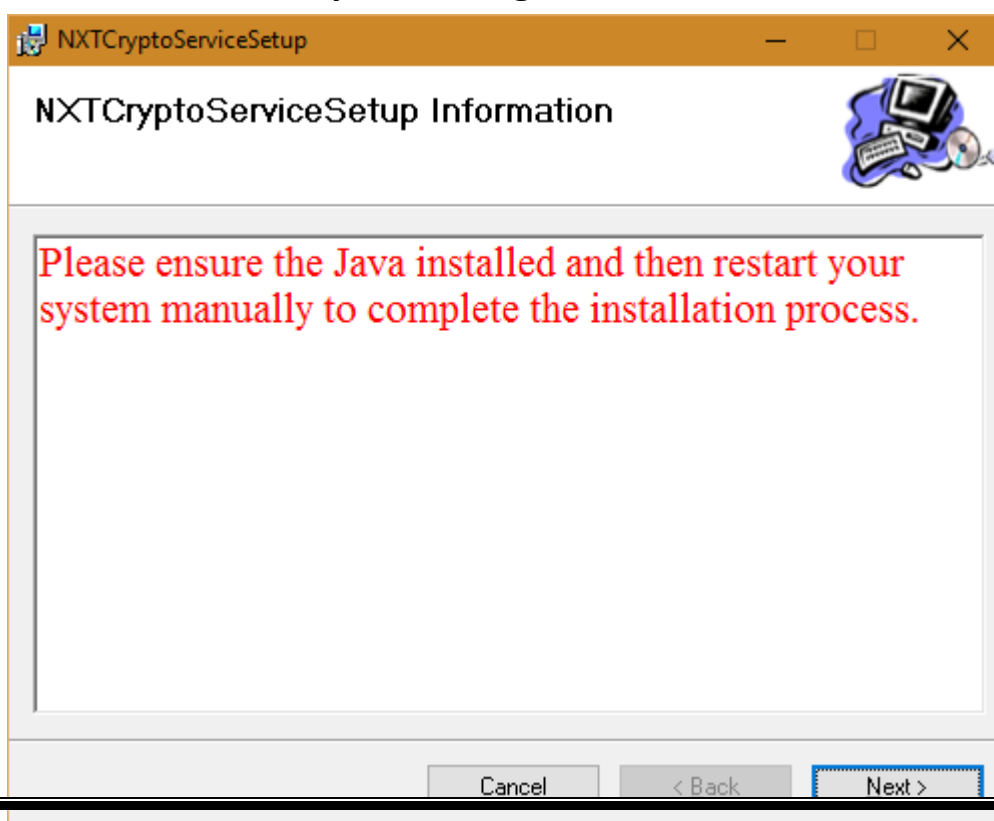

6. Select **“Everyone”** then click on **“Next”**.

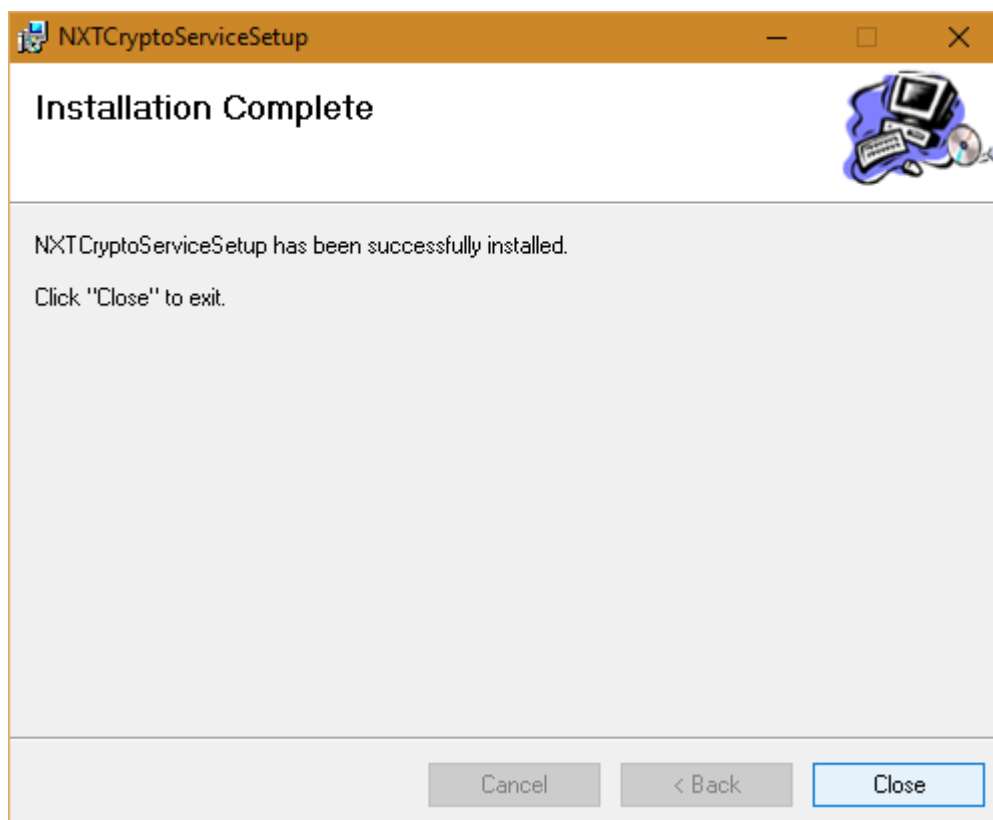

7. Click on **“Next”** to proceed further. And again click on **“Next”** to complete the installation process.

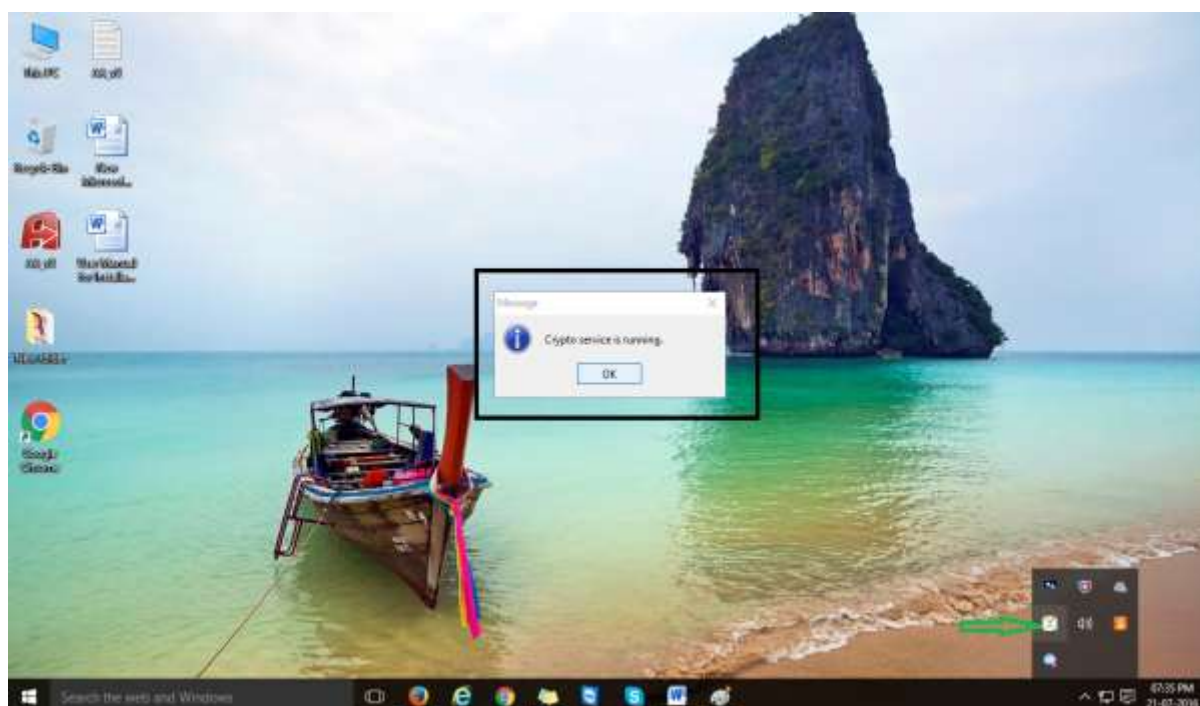

8. Now below screen will appear, prompting to restart the machine to complete the installation process. Again click on “Next”.

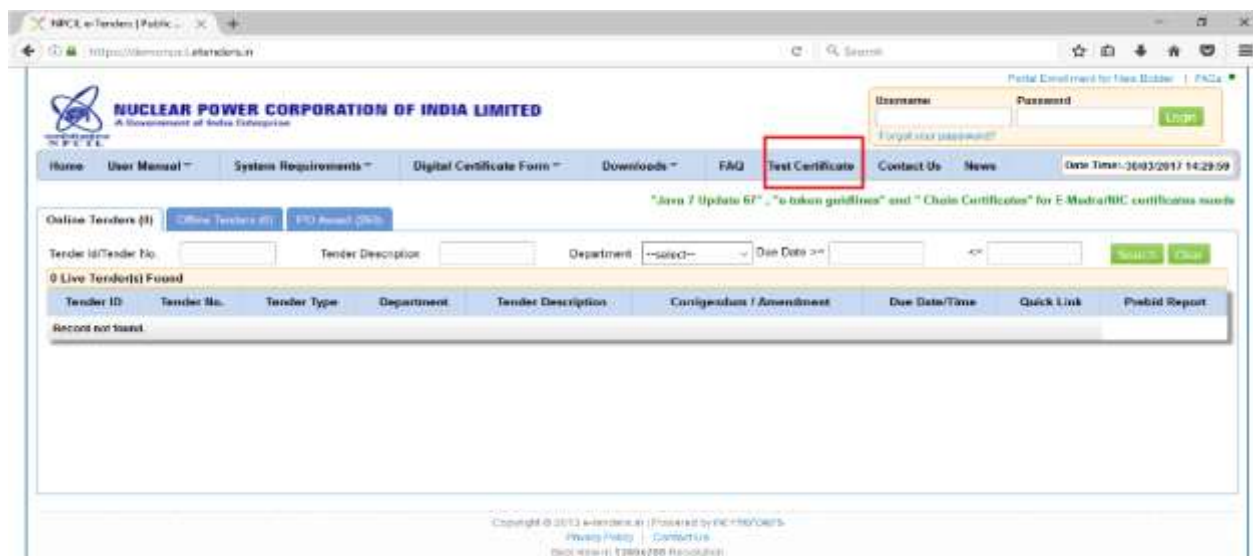

9. Now click on “Close” to exit from the setup and **“Reboot/Restart”** the machine to complete the setup.

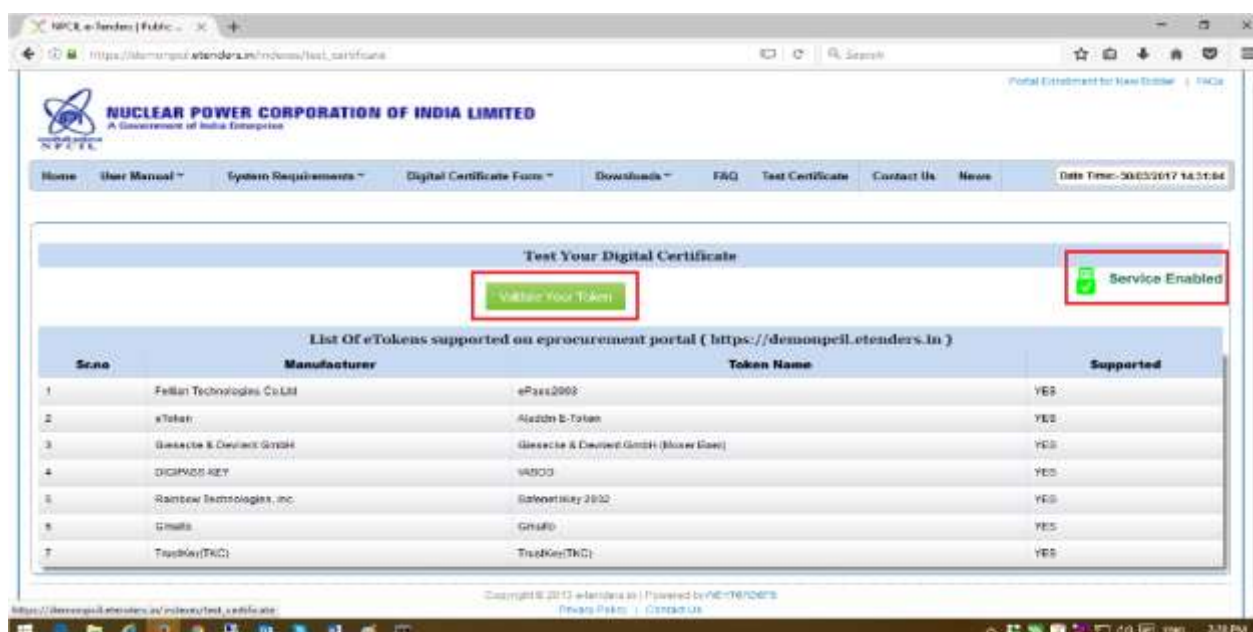

10. After the setup is complete, it can be checked by double clicking the icon from task bar as shown in below screen. The prompt message window will appear as **“Crypto Server is running”**. Now click on “OK”.

11. Now, again open the Browser and open the portal <https://npcil.etenders.in> and now select “**Test Certificate**” Tab on the home page.

12. The below screen will appear with the green check mark as “**Service Enabled**”. Now Click on “**Validate Token**”.

13. Your E-token’s details will be displayed on the screen. If that is listed on the below table then your DSC E-token is compatible with eProcurement system otherwise you need to get that changed.
